DETAILED ACTION

Claim Objections

1. Claims 10-11 are objected to because of the following informalities:

Claim 10, line 6, "the interconnected routers" seems to refer back to "routers" in line 5. If this is true, it is suggested to change "the interconnected routers" to ---the routers---.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is vague and indefinite because it is not known what factors/parameters the estimating the carried traffic for each network link and the calculating steps are based on. All steps of the claim should be correlated. It is unclear whether the estimating carried traffic in line 12 and estimating the carried traffic in line 12 are the same or different.

Claim 10 has the same problem as claim 1. In addition, the last three steps of the claim are not correlated to other steps of the claim.

Claim 12 has the same problem as claim 1.

Claim 17 has the same problem as claim 1.

Allowable Subject Matter

Art Unit: 2661

4. Claims 1-17 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
